

U.S. our ULTIMATE SAVIOR and UTMOST SALVATION

The U.S. or United States
is our ultimate Savior and utmost salvation
and I can't think of no other
besides the U.S.
to which we should surrender
for all our hopes and dreams
will come true
once we do it unto you

Oh, U.S. of Aid, how many times have you helped us
in times of war and in times of pain
in times of suffering and in times of drain
in times of disasters and in times of drought
in times of catastrophes and in times of south
in times of sickness and in times of poverty
in times of distress and in times of calamity
in times of none and in times of lack
in times of darkness and in times of black
in times when we cannot survive
the strongest quakes and the biggest tides
in times when we are burdened so much
by everyday trials and tribulations
that kills our minds and weakens our souls
that prevents our bodies from achieving their goals
that makes us vulnerable to wounds and attacks
destroying our nation's freedom and peace
until we submerge to the grounds we kiss

O U.S.
We are forever
Indebted to you
For U.S. is we and we are us
Forever we share and protect this cause
We will not falter and we will not fail
For we are one and one we hail
To help each other in times of war

And bring us together to peace
That we will not perish, forever at ease.
